[LinkedIn Profile](#) | [GitHub Profile](#) | [Personal Portfolio](#)

PROFESSIONAL SUMMARY

Python / Django Full Stack Developer and DevOps Enthusiast with strong experience in building, deploying, and scaling production-grade web applications using Python, Django, and Django Rest Framework (DRF). Proven expertise in developing secure RESTful APIs, implementing JWT-based authentication, role-based access control, and designing optimized relational databases using PostgreSQL and MySQL.

Hands-on experience with DevOps practices, including Docker-based containerization, CI/CD pipeline automation, cloud infrastructure provisioning, and microservices-oriented architectures. Skilled in working with AWS and Google Cloud Platform (GCP), asynchronous processing, caching strategies, and performance optimization. Adept at bridging development and operations to deliver reliable, scalable, and maintainable cloud-native systems.

TECHNICAL SKILLS

Languages & Scripting: Python, Bash, SQL, JavaScript

Backend: Django, Django Rest Framework (DRF), Flask

Frontend: HTML5, CSS3, Bootstrap, React, TypeScript, Tailwind CSS

Databases & Caching: PostgreSQL, MySQL, SQLite, Redis

DevOps & Cloud: Docker, Docker Compose, Kubernetes, Terraform, Nginx

CI/CD & Version Control: Git, GitHub, GitHub Actions, GitLab CI, Jenkins

Cloud Platforms: AWS, Google Cloud Platform (GCP)

Concepts: REST APIs, Microservices, Async Processing, JWT, RBAC, SDLC

OS: Linux, Windows

PROFESSIONAL EXPERIENCE

AI4S Solutions Private Limited – Kolkata, India

SAP CAPM Developer | Cloud & DevOps Engineer

July 2025 – Present

- Developed and optimized backend services using SAP CAPM, focusing on performance tuning and debugging.
- Supported CI/CD workflows, containerized deployments, and environment consistency across development stages.

- Assisted in cloud deployment strategies and enterprise system integration following SDLC best practices.
 - Collaborated with cross-functional teams to improve application stability, maintainability, and deployment readiness.
-

Tech Path Research and Development – Varanasi, India

Software Development Intern (Python Developer)

Oct 2022 – Dec 2022

- Built backend components using Python and Django following clean, modular architecture.
 - Designed and implemented RESTful APIs with secure authentication mechanisms.
 - Optimized database schemas to improve performance and data integrity.
 - Gained hands-on exposure to backend system design and scalable application development.
-

KEY PROJECTS

TechPartsPro – Multi-Vendor E-commerce Platform

- Designed and developed a production-ready multi-vendor e-commerce marketplace with complex business workflows.
- Implemented seller onboarding, product management, order lifecycle, and automated payout systems.
- Built secure REST APIs using DRF with JWT authentication, RBAC, and encrypted data handling.
- Integrated Razorpay and Shiprocket API for real-world payments and logistics.
- Implemented Celery + Redis for asynchronous processing and background jobs.
- Deployed containerized services using Docker, Kubernetes, Nginx, and Terraform on GCP, supported by CI/CD pipelines.
- Followed a microservices-oriented modular architecture with 15+ Django apps and API documentation using DRF Spectacular.

Tech: Python, Django, DRF, PostgreSQL, Redis, Celery, React, TypeScript, Docker, Kubernetes, Terraform, GCP

CA-Firm-Kolkata – Corporate Website | Dec 2025 – Jan 2026

- Designed and implemented a responsive corporate website using HTML, CSS, and JavaScript.
- Created optimized visual assets and SEO-friendly content structure.
- Applied clean UI/UX principles suitable for a financial advisory firm.

- Maintained version control using Git and GitHub and collaborated with stakeholders.
-

[AI4S Online Assessment Platform](#) | Jul 2025 - Aug 2025

- Built a role-based assessment platform using Python, Django, and PostgreSQL.
 - Implemented secure REST APIs, authentication, and authorization.
 - Containerized the application using Docker and Docker Compose.
 - Deployed on GCP (Cloud Run, Cloud SQL, Cloud Storage) for scalable operations.
-

[My Portfolio](#) | Nov 2024 - Dec 2024

- Developed a cross-browser compatible portfolio using semantic HTML5, CSS3, and SCSS.
 - Implemented mobile-first responsive design and achieved a 100% Lighthouse accessibility score.
 - Optimized performance with lazy loading, resulting in a 40% faster page load speed.
-

EDUCATION

SHEAT College of Engineering and Management, Varanasi | Aug 2018 - Aug 2022
B.Tech. in Computer Science and Engineering | GPA: 3.5

Sumitra Shiksha Sanstha Inter College, Jaunpur | Apr 2016 - Apr 2018
Intermediate (Class XII) | GPA: 3.4

Sumitra Shiksha Sanstha High School, Jaunpur | Apr 2014 - Apr 2016
Matriculation (Class X) | GPA: 3.7

CERTIFICATIONS (IN PROGRESS / PLANNED)

- Google Cloud Associate Cloud Engineer
- AWS Certified Cloud Practitioner
- Docker & Kubernetes Fundamentals
